

Text orientation in cells

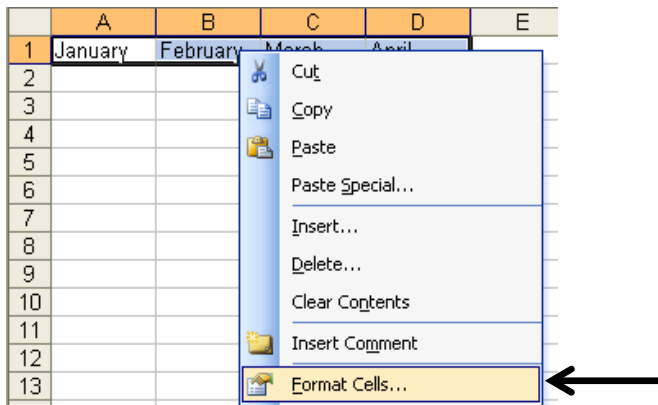

Microsoft Excel 2003

You can change both vertical and horizontal alignment as well as the orientation of the text inside the cell.

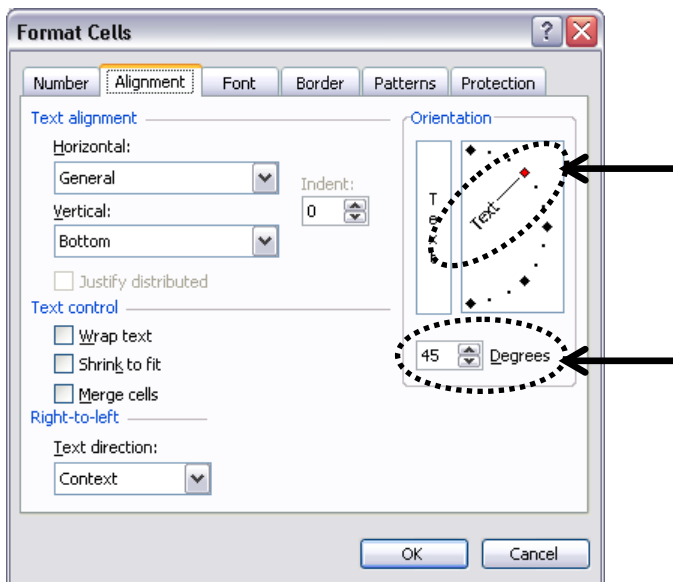

1. Select cells to be applied text orientation.

	A	B	C	D
1	January	February	March	April
2				

2. **RIGHT** click on the highlighted cells > **Format Cells**

3. Move text orientation bar with your mouse or manually type the degrees > Click **OK**

4. Done!

	A	B	C	D
1	January	February	March	April
2
